

International Association of Machinists and Aerospace Workers Local Lodge 32

SHOP COMMITTEE REPORT 18 SEP 2011

- 1) The biggest test of the shop committee was dealing with the layoffs of our members on the Hawk fleet. Times were tough and there were many meetings between the HR and the Shop Committee. I am sure we made mistakes and that we will learn from this by educating ourselves. If you have observations, concerns or suggestions on how we might better prepare for any future occurrences of this nature please let us know.
